PROFESSIONAL SUMMARY

Full Stack Developer with 3.8+ years of experience in web and mobile application development using React.js, Next.js, Node.js, Flutter, and PostgreSQL. Experienced in developing secure REST APIs, multi-tenant healthcare applications, authentication systems, appointment management workflows, and ABDM integrations. Skilled in Docker, Agile development, and building scalable, maintainable, and high-performance applications.

SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap, Shadcn-ui

Backend: Node.js, Express.js, REST APIs, Authentication (JWT, Oauth)

Mobile: Flutter, Dart

Databases: PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, Jira, Postman, Docker, Vscode, Bitbucket, Vs Code

Testing: Jest, React Testing Library

WORK HISTORY

Full Stack Developer, 03/2024 - Current
Accession Consulting & Health Tech – Mysuru

- Developed and maintained secure REST APIs using Node.js with JWT/OAuth-based authentication and authorization.
- Built responsive and reusable frontend modules using React.js, Next.js, TypeScript, and Redux.
- Developed reusable React components and managed application state with Redux.
- Implemented multi-tenant healthcare workflows including tenant onboarding, patient management, and appointment scheduling.
- Integrated third-party healthcare APIs, including ABDM, to support health record sharing and consent management.
- Collaborated with cross-functional teams in Agile/Scrum environments, participating in requirement analysis, code reviews, debugging, and testing.

Associate Software Developer, 07/2023 - 12/2023
Nogrunt– Bengaluru

- Developed and maintained responsive user interfaces using React.js, JavaScript, and Material UI.

- Built reusable and modular components to improve code maintainability and development efficiency.
- Integrated REST APIs for data fetching, updates, and seamless frontend-backend communication.
- Collaborated with backend developers, QA engineers, and product teams to deliver high-quality features
- Participated in requirement discussions, bug fixing, code reviews, and Agile/Scrum ceremonies.
- Worked on application performance optimization and enhanced user experience through efficient UI implementation.

Software Developer, 04/2022 - 07/2023

Atraya Technologies – Bengaluru

- Developed and maintained user interfaces for client applications such as aagey.com and AuditFy.
- Built Responsive UIs and reusable components using React.js, Formik, and Axios for REST API integration.
- Performed API testing using Postman and backend.
- Designed and executed test strategies for web apps, maintaining test cases and ensuring quality delivery.

PROJECTS

Practmd — Full Stack Developer | Linux

Technologies**:** Nextjs React.js, Nodejs,PostgreSQL, JWT/OAuth, Docker

Roles & Responsibilities:

• Developed appointment scheduling and patient management modules for healthcare providers.
• Built reporting and dashboard features for healthcare operations.
• Implemented authentication and authorization workflows using JWT/OAuth.
• Integrated healthcare workflows to support patient onboarding and clinic management.

Dello Plus — Mobile & Backend | Linux

Technologies Used: Flutter, Dart, Python (Flask), PostgreSQL, Firebase, Google Cloud

Roles & Responsibilities:

• Developed mobile app screens and business workflows using Flutter for Android, iOS, and Web.

• Implemented patient onboarding, assessments, immunization, and follow-up

management workflows..

• Integrated ABDM APIs for health record sharing and consent management.

EDUCATION

B.Tech: Computer Science, 07/2019

Shaheed Bhagat Singh State Technical Campus - Firozepur, Punjab
